## THE CHALLENGE EXASPERBATED

## You're Against All Odds

## EDR IS NOT ENOUGH

# 99% Detection

Current security solutions depend upon detection before they can prevent. Detection efficacy rates are not good enough.

## REPUTATION SERVICES

# Unpredictable

Third-party intelligence services fuel the detection world but remain too slow and inefficient to be relied upon all the time

## INSUFFICIENT

# Expertise

Limited cyber training, a high learning curve, and finite number of available experts to address your risk

## THE CHALLENGE ACCEPTED

# One Solution, Uniquely Bundled = Total Effectiveness

A single unified endpoint solution offering exploit prevention, advanced threat hunting, and endpoint management to stop ransomware, avoid breaches, and sustain your business.

STOP RANSOMS IN REAL TIME

## 100% Protection

Comodo is disrupting the market with our patented approach to stopping breaches and the damage malware and ransomware can cause. Devices remain protected even if they're infected by an unsecured device.

UNIFIED TECHNOLOGIES FOR

## Endpoint Security

Our **cloud native platform** works in real time to communicate threats between EDR, AEP, MDR, EMM, and MDM to give you enterprise grade protection at affordable fixed rates.

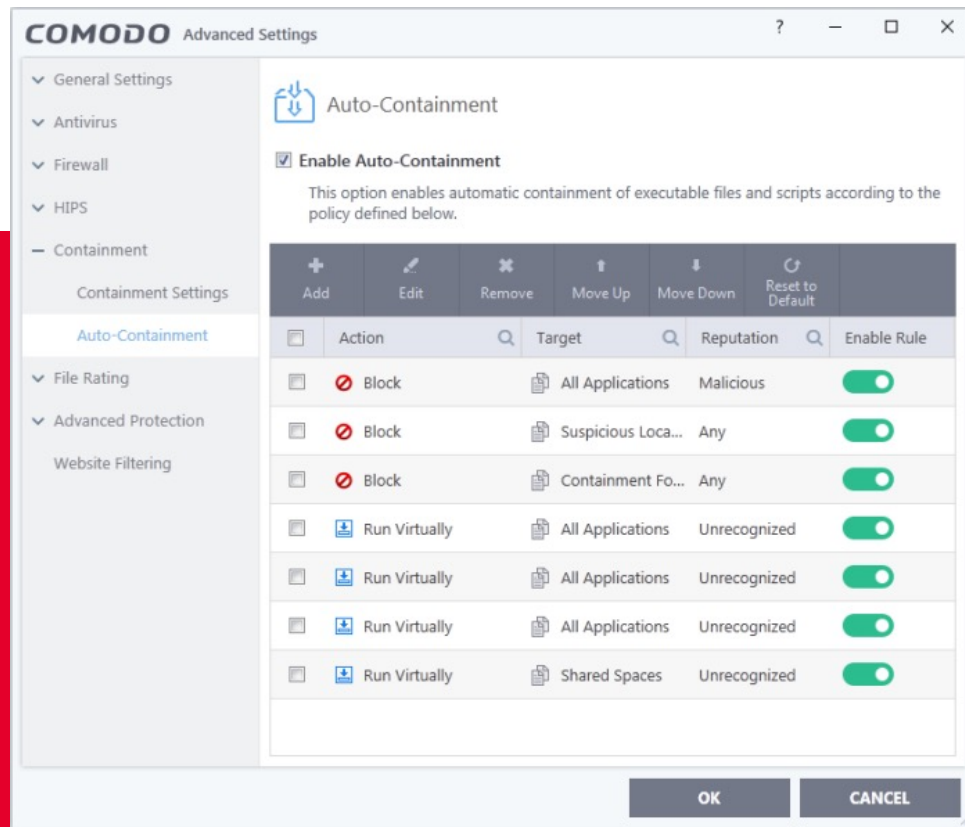

24HR FULLY MANAGED

## SOC Experts

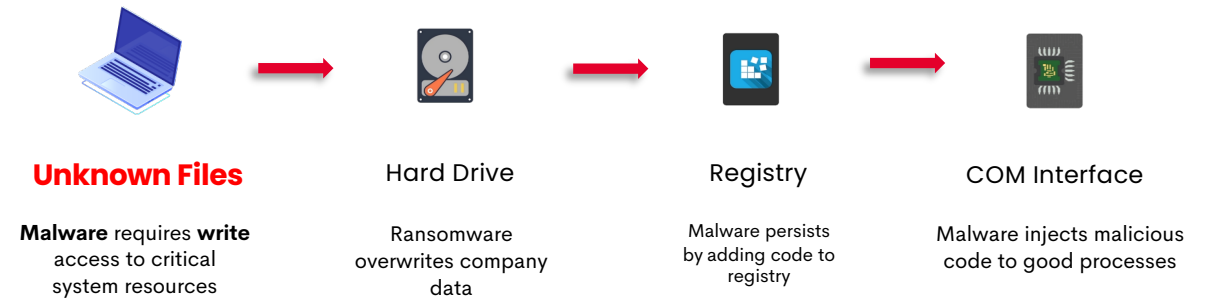

Our Security Operations Centers and teams of analysts work around the clock globally. These veteran threat hunters do not assess your business size, they simply love eliminating malware attacks and threats.

# Auto Containment

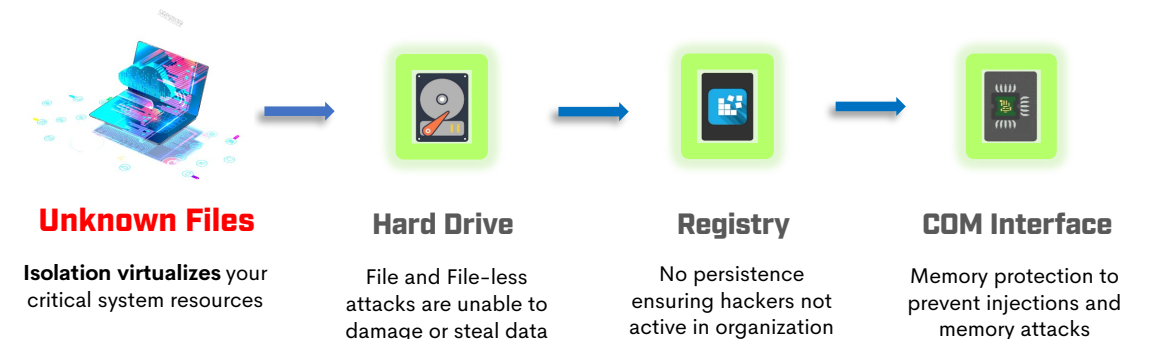

Move from Detection to Prevention With Auto Containment™ to isolate infections such as ransomware & unknown threats.

## Traditional AV and detection fail to stop threats from executing

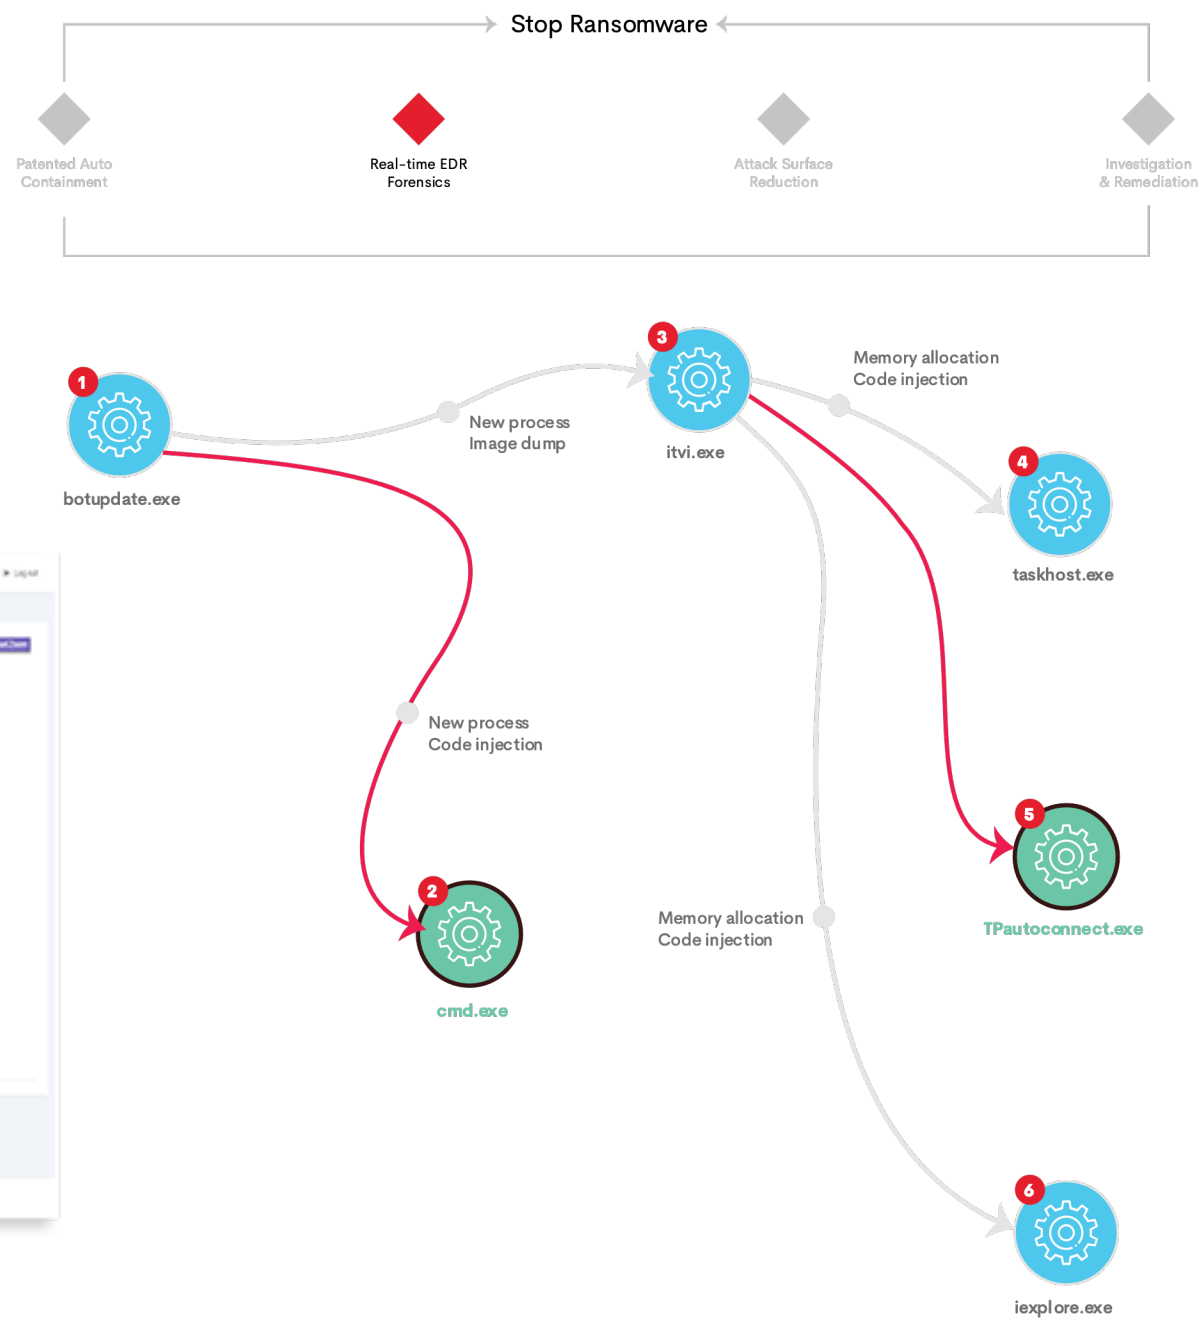

## Our Technology Isolates and Disables the Threat at Runtime

# Real-time EDR Forensics

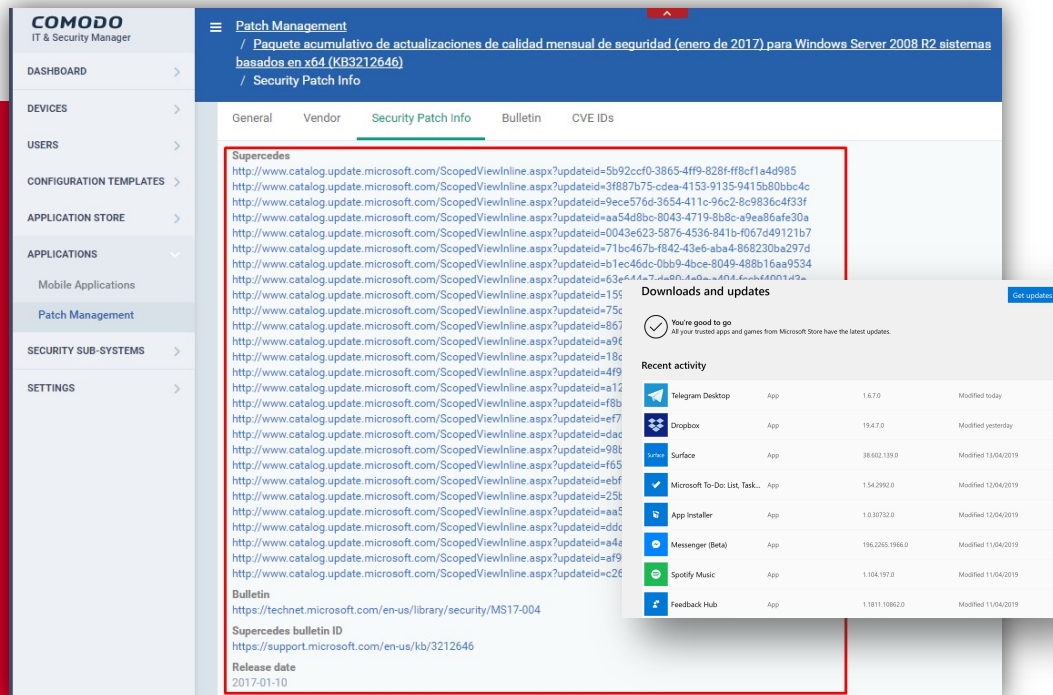

Gain full context of an attack to connect the dots on how hackers are attempting to breach your network.

# Attack Surface Reduction

Practice cyber hygiene to reduce the attack surface by identifying applications, understanding the vulnerabilities and remediating patches.

## MANAGED SERVICE

# SOC Investigation and Remediation

Your vulnerabilities are due to lack of resources, processes, and possibly the technology to maintain all these technologies.

## Continuous Monitoring

Security analysts continuously monitor alerts for malicious activities or policy violations that can lead to attempted breaches.

## Proactive Threat Hunting

Our proactive nature of threat hunting recognizes that threats can still try to evade in-place security protections.

## Managed Response & Reporting

Providing remediation guidance on mitigating the threat, and orchestrating immediate triage and response

## ABOUT US

Comodo is the world's leader of next-generation cybersecurity, with the industry's most disruptive innovations.

We help customers stop breaches with groundbreaking isolation technology that neutralizes ransomware, malware and cyber-attacks. Our complete cloud-native framework delivers a zero-trust architecture with active breach protection for the most comprehensive defense against zero-day threats. Comodo's cybersecurity products maximize intelligent sharing between every component of the platform, therefore providing superior security. We are the only company that analyzes and gives a trusted verdict for 100% of files on a network.

Comodo leverages innovation to celebrate and support the cybersecurity community by offering the very first open-source endpoint detection and response (EDR). We believe an open-source model using community-powered collaboration will ensure every organization has access to the industry's most sophisticated EDR.
